

NRP 2010

Student Information

After registering for NRP and obtaining your book please:

1. Read the material, if the DVD was included the DVD is an awesome review.
2. Come prepared to test and perform a scenario demonstration effectively. Your instructors will no longer guide you through the scenario, you will be expected to perform to the standards set by the AAP.
3. The practice date will be hands on practice not lecture. We will set up skills practice stations and will be there to guide you through the scenarios.
4. The practice date will be a great time to help you feel more comfortable with your performance of the mega code.
5. If you are comfortable with the steps of the mega code you will be able to handle any resuscitation with a real baby.

Thank-you
Redlands Community Hospital NRP Instructors
