BE PREPARED WITH BAQSIMI

BAQSIMI is used when someone is having a low blood sugar emergency, where the person is unable to eat or drink and needs help from someone else. BAQSIMI is a form of glucagon given as a puff in the nose, it does not need to be inhaled. It can be given even if the person has congestion or has taken a decongestant.

WARNINGS :

It is **not** known if BAQSIMI is safe and effective in children under 4 years of age. **Do not use** BAQSIMI if you have a tumor in the gland on top of your kidneys (adrenal gland), have a tumor in your pancreas, or if you are allergic to glucagon, or any other ingredients in BAQSIMI. It is not known if BAQSIMI passes into breast milk. You and your doctor should decide if you can use BAQSIMI while breastfeeding.

It is important your primary care physician knows all the medications you are taking, including prescribed and over-the-counter medicines, vitamins, and herbal supplements.

BAQSIMI MAY CAUSE SERIOUS SIDE EFFECTS, INCLUDING :

High blood pressure. BAQSIMI can cause high blood pressure in certain people with tumors in their adrenal glands.

Low blood sugar. BAQSIMI can cause certain people with tumors in their pancreas to have low blood sugar.

Serious allergic reaction. Call your doctor or **get medical help right away** if you have a serious allergic reaction including:

Giving the Dose:

- 1.) Hold device between fingers and thumb. Do not push plunger yet.
- 2.) Insert tip gently into one nostril until finger touch the outside of the nose.
- 3.) Push plunger firmly all the way in. Dose is complete when the green line disappears.

COMMON SIDE EFFECTS :

- nausea
- vomiting
- headache
- runny nose
- discomfort in your nose
- stuffy nose
- redness in your eyes
- itchy nose, throat, and eyes
- watery eyes

These are not all the possible side effects of BAQSIMI. For more information, ask your doctor. Call your doctor for medical advice about side effects. **You are encouraged to report side effects of prescription drugs to the FDA.**

Visit www.fda.gov/medwatch, or call 1-800-FDA-1088.
