

# Our Healthcare Team Is In. You Should Be Too.

**Do not put off your healthcare needs.** Our Emergency Department is open and ready to help you if you are experiencing any life-threatening medical emergency such as a heart attack, stroke, or a severe injury. Please don't let the worry of COVID-19 prevent you from seeking treatment.

Our hospital has also resumed elective, non-urgent procedures and services that had been deferred due to the COVID-19 pandemic. We follow strict safety measures recommended by the Centers for Disease Control (CDC), which are designed to protect you and our staff. **You are safe at RCH and if you need care, we are prepared to be there when you need us.**
